14 Inch

LOMO GX

16 Inch

Meet our new hightech power assist bikes
unique features, clean design, powerfull motors

You can choose between the 5 highlight kits
black/silver, blue, green, orange and red at no extra charge.

Technical data

Model	Micro GX	Lomo GX 14"	Lomo GX 16"
Application	City	Allrouder	Extrem Mountain
Battery	48 V 6 Ah (IATA Airplane ready), 13 Ah (standard), 17.5 Ah		
Range	up to 40 km		
Wheel size	12 Inch	14 Inch	16 Inch
Weight	from 17 kg	from 20 kg	from 18 kg
Engine power	500 Watt	1000 Watt	500 Watt
Motor type	Direct Drive	Direct Drive	Geared Drive

New innovative models
Lomo GX & Micro GX

New controls

BIDI-THROTTLE

The bidirectional throttle enables intuitive acceleration, braking and reversing with just one control element.

EASY TO TOGGLE FUNCTIONS

The Multiswitch combines three core functions of the new GX equipment in one: cruise control, auto brake and traction aid. For models without a bidirectional throttle grip, the classic reverse gear is also integrated.

SMALL COLOUR DISPLAY

The modern colour display impresses with its minimalist size, while remaining discreet and still ensuring excellent readability. Despite the simple design, all essential information is clear and visible at a glance.

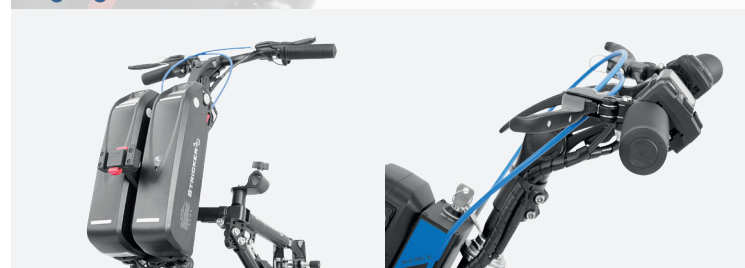

Bidirectional throttle

Multiswitch & colour display

Highlight kits & certified reflective foil

New features

CRUISE CONTROL

The new, innovative **Cruise Control with downhill assist** intelligently maintains your speed - both uphill and downhill - and even recovers energy when braking.

AUTO BRAKE

If Auto Brake is activated, the vehicle brakes automatically as soon as the throttle is released.

TRACTION ASSIST

The traction assist or indoor mode significantly reduces the power supply, resulting in a less punchy throttle. This helps prevent slipping on smooth or loose surfaces and makes the function well-suited for indoor use.

New design

SMART CABLE MANAGEMENT

The slim cable tray conceals not only the cabling but also the intelligent „Gojo-Xtended (GX)“ control system. In addition to a modern look, this design also allows for easy maintenance.

HIGHLIGHT KITS

The highlight kits are characterised by certified reflective foils on the cable tray and the coloured Brake cable housing - and are available at no extra charge.

STRICKER

WE MOVE PEOPLE & HEARTS

Out of the Black Forest

Our products, tested on steep slopes, ensure maximum climbing ability. If they overcome our mountains, they will overcome yours!
